Forms

Forms can be very helpful. Google Docs has a forms feature.

Here's a quick intro video: <http://www.youtube.com/watch?v=csoftt-PNy8>.

Check out this link from Google Support for information more on how to create and use a form: (<https://support.google.com/drive/answer/87809?hl=en>). Be sure to watch the video on the support page.

Here are some tutorial pages for forms on Google Support:

Might be something you can incorporate into your classes at school or possibly communication with parents... :)

Have fun!
